

REPORTS

Each day, the CARS application creates reports which are available on a secured website.

Reports are generated in CSV f le format which allows subscribers to customize the data using various software programs. Reports for Toronto Stock Exchange (TSX), TSX Venture Exchange (TSXV), and TSX Alpha Exchange (Alpha) are created and saved as separate f les. The CSV f les contain the subscriber's alerts as defined by the subscriber for the prior business day.

SECURITY

Alert/Report parameters will be entered using a secured web browser interface. The report will be available on a secure website. All CARS data is secured from external parties and access at TSX Exchanges is restricted to defined administrators.

CARS PRICING

CARS reports have been priced individually to provide subscribers with the greatest value and f exibility. Repart TSX, TSXV and Alpha.	oorts are available separately fol
